I . About IAESTE

IAESTE is an abbreviation for “International Association for Exchange of Students for Technical Experience”. More specifically, it is an international non-governmental organization providing overseas internships for students majoring in natural sciences. Since its inception in the United Kingdom in 1948, IAESTE has pursued the goal of training engineers with a broad international perspective. While its main focus of activity has been in Europe, more than 80 countries have joined this group along with 350,000 students who have participated in mutual exchanges to this day. The entirety of the internship training is conducted in English.

Students who submit a training report within a month after the completion of the programme will receive the official IAESTE Training Completion Certificate. For more detailed information, please visit the official website below.

- IAESTE Official Website <https://iaeste.org>
- IAESTE JAPAN Official Website <https://iaeste.or.jp>

2. Exchange Type

The IAESTE programme is conducted on a one-to-one basis whereby one student is taken for every student sent abroad. Every year in January, the IAESTE member countries convene at the annual conference to exchange their interns' respective work offers.

These types of offers are called AC offers.

- * **The internship offer can be found in an A4 document named **WORK OFFER**. Its abbreviation is called **O-Form or Form-O****
- * The following information will be written in English: Name of the accepting country and institution, required skills, number of years required to complete the current degree programme, work content, possible internship period, accommodation expenses (in local currency) and lodging details. The reference number will be displayed in the top right-hand corner
- * Application documents (i.e. nomination documents) will be prepared in accordance with the assigned offer and sent to the host country's office. The decision concerning acceptance or rejection will depend on the results of the host organization's inspection. The procedures are described in detail in the program guidance(2024 edition).

The internship offer is contained in an A4 document labeled WORK OFFER.

Please remember that this is an important term for IAESTE.

The German O-form for 2023 is shown below for your reference. (Whether the same offer will be available in 2024 is yet to be determined)

IAESTE GERMANY

WORK OFFER

Ref. No. DE-2023-3055-1

Employer Information

Employer: Fraunhofer IDMT
Metadata
Ehrenbergstr. 31
98693 Ilmenau
Germany

Website: <https://www.idmt.fraunhofer.de>

Location of placement: Ilmenau
Nearest airport: Frankfurt/Main FRA
Working hours per week: 39.0
Working hours per day: 7.8

Number of employees: 60

Business or products: Digital Media Technology

Student Required

General Discipline: COMPUTER AND INFORMATION SCIENCES

Completed years of study: 2

Field of Study: Computer and Information Sciences, General.;
Artificial Intelligence.; Information Technology.;
Computer Programming/Programmer, General.;
Computer Software and Media Applications, Other.

Student status requirements: required during the whole period of internship

Language required: English Good (B1, B2) Or
German Good (B1, B2)

Required Qualifications and Skills:

Python

Other requirements:

Interest and first experience in computer vision and machine learning. Basic knowledge of image and video formats and representation. Knowledge of at least one programming language (ideally Python, C++)

Work Offered

help in preparation, execution and evaluation of experiments in image and video analysis using machine learning approaches

Number of weeks offered: 12 - 12

Working environment: Research and development

Within the months: 01-SEP-2023 - 14-DEC-2023

Gross pay: 934 EUR / Month

Or within: -

Deduction to be expected: variable

Company closed within: -

Payment method / time of first payment: Other cash or bank transfer / end of month payment.

Latest possible start date:

Accommodation

Canteen at work: Yes

Expected type of accommodation: Info will be handed in later

Estimated cost of lodging: 450 EUR / Month

Accommodation will be arranged by: IAESTE

Estimated cost of living incl. lodging: 934 EUR / Month

Additional Information

see additional documents

Nomination Information

Deadline for nomination: 15-MAR-2023

Date: 01-JUN-2023

On behalf of receiving country: IAESTE Germany

Selecting the Type of Internship Offers

● AC Offer (Annual Conference Offer)

- At the annual conference (International General Assembly), the student applicants will be matched with offers closest to their preferred conditions and eventually assigned to one offer each after the annual conference in February. The offers with no other applicants or competitors will most likely lead to an internship.
- The nomination documents are to be submitted to the host organization by March 15, upon which the acceptance results will follow. In the case of rejection, the application process can be continued by searching for alternative COBE/FCFS offers described below. As a general rule, it is not allowed to change the initially assigned offer to COBE/FCFS offer through rejection.

● COBE / FCFS Offers

COBE Offer (Continuous Online Basis Exchange)

- Multiple applications are possible if the offers' requirements are met. Applicants can apply for an unlimited number of offers of their desired exchange periods from any of the offers posted on the exchange platform. Given that there are many offers with an application window of two weeks, it is necessary to prepare the nomination documents quickly.
- The number of offers changes according to season. Normally, the peak is reached between May and June, followed by a decrease throughout the summer and a resurgence during autumn and winter.
- There is a large number of offers in the field of Computer Science
- Depending on the offer, there may be a large volume of applications from other countries. In such a scenario, the most skilled student will be selected. Only one student per country can apply for one offer; if there are multiple applicants in your respective country, the required level of skills, English abilities, the transcript and the number of units in their area of study have to be taken into account in the selection process. The student who fulfills these requirements best will be selected by the office.
- Given the low number of offers for second-year graduates or majoring in biology, urban planning and architecture, we recommend these students to consider the AC offers instead
- Offers for remote internships are possible but very few (there is no payment for accommodation expenses in Japan for these types of offers during training)

FCFS Offer (First Come First Served)

- Students will be accepted on a first-come, first-served basis. After such an offer has been published, an application has to be made as soon as possible. All other aspects of this type of offer are identical to COBE except the small number of overall offers.

Features of Offer types

Offer Type	Advantage	Disadvantage
AC Offer One offer assigned to per person	<ol style="list-style-type: none"> 1. there are no other applicants (competitors). 2. there is a very good chance that you will be accepted if you meet the required skills 3. If you are not accepted, or if the offer itself is cancelled for some reason, you can search for your preferred offer from the COBE/FCFS offers. 	<ol style="list-style-type: none"> 1. You cannot choose the country of destination. 2. You cannot choose the content of the training, so it may not meet your expectations. 3. If there is no offer in your first choice region that matches your desired field and desired duration, you will be assigned to your second or fourth choice region. 4. 4. The first offer you are assigned cannot be rejected in principle. (Except in cases where the country has become a travel risk.
COBE Offer	<ol style="list-style-type: none"> 1. You can choose the offer you want by looking at the country of your choice, content, duration, etc. 2. You can apply to multiple offers at the same time. 3. There are offers from companies that are not listed in the AC offer. 4. If no student is found that meets the requirements, the offer will be repeatedly published in the system. 5. There are many offers in the computer science field. 6. Remote internship offers will be available. 	<ol style="list-style-type: none"> 1. Applicants may come from every member country There may be more than one competitor for some offers. 2. The number of open offers fluctuates depending on the time of the year, with a maximum of about 600 in June and less number during the summer vacations 3. Most offers have a deadline of two weeks to one month after the offer is released. 4. There are only a few offers for students who have completed two years of undergraduate study.
FCFS Offer	The first student to send in nomination documents will be accepted. Others are same as above 1~6.	You should send in your Nomination documents immediately after it is published.

3. IAESTE Member Countries

Argentina	Cyprus	Israel	Pakistan	Sweden
Australia	Czech Rep.	Japan	Palestine	Switzerland
Austria	DPR Korea	Jordan	Panama	Syria
Afghanistan KU	Denmark	Kazakhstan	Peru	Tajikistan
Bangladesh	Ecuador	Kenya	Philippines	Tanzania
Bosnia and Herzegovina	Egypt	Kuwait	Poland	Thailand
Brazil	France	Lebanon	Portugal	Tunisia
Belarus	Gambia	Luxemboug	Qatar	Turkey
Bolivia	Germany	Macedonia	Republic of Korea	Ukraine

China Macau, SAR	Ireland		Sri Lanka	
Colombia			South Africa	

4. Number of Exchanges (Numbers for 2020-2021 decreased due to Covid-19)

Training Year	Students Sent	Students Accepted
2017	27	60
2018	38	49
2019	44	50
2020	0	1(Remote internship)
2021	12	0(Due to entry ban)
2022	17	23

II. IAESTE Overseas Internship

1. Outline

* "Dispatching" in this context means partaking in an internship abroad with the IAESTE program. Students who participate in such an internship will be referred to as "dispatchees"

- 1) Field of studies (including IT-related)
Please refer to the section "List of Specialties" on the pages 14-15 for further information
- 2) Internship Destinations: Universities, research institutions, companies and other organizations in IAESTE member countries

Please note:

1. There are almost no institutions accepting interns (internship destinations) in North America and Oceania
 2. In addition to professional skills, passing an online interview is required in many countries. English speaking abilities are a must, especially for European internships.
 3. Expertise in the respective subject area is particularly emphasized in Europe
- 3) Training Period:
Anything between 8 - 52 weeks can be chosen. Most offers fall within the 8 - 12 week range or last for either a year or half a year.

For AC Offers:

The training start can be chosen on any date between June 1st 2023 and December 2023. Alternatively, there are many offers from July to December and particularly from July to September for students who wish to conduct their training during the summer break.

If you set a very short time limit for your desired internship period, the overall amount of potential offers will decrease.

For COBE/FCFS Offers:

An offer of the desired period can be chosen. In European member countries, the amount of offers decreases in August due to summer vacations.

- 4) Accommodation: The local IAESTE office or host organization will arrange for accommodation.
- 5) Language: The training will be conducted in English. In non-English speaking countries, the local language may be needed for everyday life. Once the destination has been decided, learning the language to a certain degree can facilitate a more fulfilling time in the host country. It is advantageous to have skills in the language of the country where the internship is conducted (German is an advantage for Austria/Switzerland/Germany).
IAESTE provides internships specifically meant for putting knowledge acquired at university into practice, be it at laboratories, companies or other organizations. Its goal should not be studying English or doing work outside of one's specialty

- 6) Participation Fee

The participation fee is the same for both AC and COBE/FCFS offers. It is 55,000 yen for students from member universities and 110,000 yen for students from non-member universities

Breakdown:

1. Application fee: Member universities 5,000 yen, non-member universities 10,000 yen
2. Program entry fee (internship commission): Member universities 50,000 yen, non-member universities 100,000 yen.
 - *The dispatchees' rights are valid for three years after the completion of the interview.*
 - *If you participate in the internship more than once, an additional program participation fee will be half price. Application fee is not be charged.*
 - *If you end up doing a Remote internship, 25,000 yen will be refunded.*

7) Dispatch Expenses Breakdown:

1. Travel expenses: Travel expenses are the responsibility of the dispatchees
2. Cost of living: As a general rule, the minimum cost of living, e.g. accommodation and meals are borne by the host organization. However, expenses for activities such as leisure and travel might have to be paid by the dispatchees themselves
3. Overseas accident insurance: Mandatory at the expense of the dispatchees
4. Visa: Documents required for obtaining a visa will be issued by the respective IAESTE country. The visa application process must be undertaken by the dispatchees. The costs involved in obtaining a visa are to be paid by the dispatchees.

Notes concerning AC and COBE/FCFS offers

- Many developed countries in Europe require three to four years of undergraduate study or more; many countries conduct online interviews as part of the acceptance process.
- The host organization reviews the English resume and transcript; internships outside of one's field of expertise are not possible.
- *AutoCAD skills and portfolio submission are required if you wish to do an internship in the field of Architecture.*
- TOEIC scores are invalid for internships in Austria. A certificate for speaking and writing abilities is required.
- For internships in Germany, only full-month periods from the start to the end of the month can be chosen. Finishing or starting in the middle of the month is not possible. (e.g. July 1st to September 30th is possible, July 13th to October 13th is not possible)
- PhD students are not eligible for internships in Switzerland

2. Procedures leading up to internship decision

- I. After having paid the application fee, the application documents will be sent to the office by email before the deadline. The required student information will be obtained from the **IAESTE Exchange Platform** (<https://iaeste.smartsimple.ie/>) and registered in English, including university, field of study and contact information. Registration will be complete upon certification by the office. Please refer to the Student guide in the Exchange Platform to find out how to register. **From assigning offers to deciding internships, everything is done on the Exchange Platform.**

- II. In November, the IAESTE professor at your university will conduct an interview concerning your motivation and your CV. Feedback on the interview results will be given by the office. The interview date will be decided in coordination with the interviewing professor at each university.
For AC offers:
 The student's expertise, number of years in the field of study, internship role, possible period of training and preferences outlined in the application will be taken into consideration at the annual conference by IAESTE Japan when assigning offers. The offer will be assigned in accordance with a 6-digit specialty number described on P.14-15 and the person's desired area/training period (specialties where training is possible).
Once assigned AC offer cannot be converted to COBE/FCFS offers.
For COBE/FCFS Offers:
 Please select the offer in the Exchange Platform you want to apply for and contact the office with the offer's reference number at any time. Nomination documents will be submitted before the deadline after assignment by the office. If there are multiple applicants for one offer from Japan, the required level of skills, English abilities, the transcript and the number of units in their area of study have to be taken into account in the selection process. The student who fulfills these requirements best will be selected by the office. Subsequently, the process from **iii** to **vi** is the same as with the AC and COBE/FCFS offers.

- III. Upon assigning the offer, the nomination documents will be prepared in accordance with the instructions of the respective country and sent to the Japan office. The Japan office will confirm that the nomination documents have been prepared accordingly and forward them to the IAESTE office of the host country. Subsequently, acceptance or rejection will be decided based on the screening by the host organization. The latter may also conduct an interview via online or telephone. In Austria, the interview will be conducted right at the beginning.
Acceptance can be denied if the host organization's requirements concerning knowledge, skills and language abilities are not met.

- IV. If a long-term internship for a half year or one year (26-52 weeks) is desired, proficiency in English and a high level of skills is required. There will also be two or three interviews.

- V. If the screening of the host organization is passed, the "ACCEPTANCE NOTE" will be uploaded to the Exchange Platform, officially marking the decision to send the student overseas as an intern.

- VI. Please make sure to carefully read the 2024 edition of the “Program Manual” on the website (downloadable) before proceeding. It outlines the submission method for the nomination documents and the procedures for using the system.

III. Application Requirements

Application documents: Please download form one and two from the IAESTE JAPAN [website](#).

1. Application form (passport photo (3.5x4.5cm))
2. Statement of motivation (English)
3. English Resume (A4, not more than 2 pages, otherwise no format restrictions)
4. English Certificate of enrolment and transcript of records(copy also possible). Make sure to keep the original as it will be needed later
5. English proficiency certificate (copy also possible):

Required score to select AC offer

TOEFL iBT62 or above, TOEFL ITP503 or above, IELTS6.5 or above, Cambridge Eiken C1(CAE) or above, Eiken Level 1 or higher, TOEIC Listening/reading 600, TOEIC Speaking/Writing 240 or higher. As a general rule, if there is an expiration date, it should be within the expiration date. (If your mother tongue is English, you don't need to submit it)

Required score to select COBE/FCFS offer

TOEFL iBT88 or above, TOEFL ITP570 or above, IELTS5.5 or above, Cambridge Eiken FCE or above, Eiken Level 1 or higher, TOEIC Listening/reading 800, TOEIC Speaking/Writing 300 or higher. As a general rule, if there is an expiration date, it should be within the expiration date. (If your mother tongue is English, you don't need to submit it)

In overseas IAESTE organizations, there are many cases where English ability is evaluated by means of TOEFL, IELTS and Cambridge Eiken FCE scores. TOEIC scores are not valid for Austrian internships.

6. A copy of the fee transfer (A4, ATM statement can also be used)

Notes for emailing documents (no need to post them):

1. **Combine the documents 1 to 5 into one PDF file in the same order, add your personal name and the name of your university to the file name, then send it to office@iaeste.or.jp by email. Please make sure to also attach the fee transfer copy (file 6). Example: [insert name]University_John Doe.pdf. Please name the file according to this template.**
2. **Please enter your name in place of the email subject.**
3. The application fee will not be returned.
4. Please make sure not to put the application documents and the application fee transfer copy into one single file.

Application acceptance period: **Must arrived by email at the IAESTE Japan office between 1st September 2023 and October 20th 2023 ,17:00**

Application fee payment method

Application fee: Member university students 5,000 yen, non-member university students 10,000 yen

Please forward the payment to the following account with the applicant's name (katakana):

Payee	Mitsubishi UFJ Bank Sugamo Branch (branch number 770)
Account number	Normal (普通) 0000925

Recipient	Japan International Association for the Exchange of Students for Technical Experience
-----------	---

- (1) The original copy of the transfer details should be kept by the examinee. No receipt will be issued.
- (2) Please pay the application fee by October 19th 2023, which is the daybefore the application deadline

After transferring the application fee, please register on the Exchange Platform .

Go to <https://iaeste.smartsimple.ie/> and click on Register with us →Are you a student?

Register your university, field of specialization, address, contact information, and all other necessary information.

The registration will be completed when the secretariat verifies it.

The system's **Student Guide** will guide you through the entire process from registration to the end of your internship.

Please make sure that you have entered your university name, address, and e-mail address correctly.

* Type of Study Programme: Select Master if you plan to pursue a master's degree in April 2025.

* Completed Years of Study: Enter the year you will complete at the end of March 2024. If you are one of the above students, enter 4.

* Required Years of Study: If you are one of the above students, please enter 6 (the number of years you have been an undergraduate).

Please enter an email address that is valid at the time of your internship, as personal information cannot be modified.

If your email address is likely to change due to higher education, please use an email address other than your university email address.

IV. List of Specialties

Please select and mark three different **6-digit specialty numbers** (**.****) in the applicable training areas below. Make sure to do this for those specialties that you have already studied. You cannot do an internship in a subject area you have not previously studied.

40.0601	Geology/Earth Science, General.	52.0299	Business Administration, Management and Operations, Other
40.9999	Physical Sciences, Other.	52.0301	Accounting.
40B	PHYSICS	52.0305	Accounting and Business/Management.
15.1601	Nanotechnology.	52.0806	International Finance.
40.0202	Astrophysics.	52.0901	Hospitality Administration/Management, General.
40.0801	Physics, General.	52.0903	Tourism and Travel Services Management.
40.0802	Atomic/Molecular Physics.	52.0904	Hotel/Motel Administration/Management.
40.0805	Plasma and High-Temperature Physics.	52.1001	Human Resources Management/Personnel Administration, General
40.0806	Nuclear Physics.	52.1099	Human Resources Management and Services, Other.
40.0807	Optics/Optical Sciences.	52.1101	International Business/Trade/Commerce.
40.0809	Acoustics.	52.1401	Marketing/Marketing Management, General.
40.0810	Theoretical and Mathematical Physics.	52.1402	Marketing Research.
40C	CHEMISTRY, MATERIAL SCIENCE, AND CHEMICAL ENGINEERING	52.1403	International Marketing.
14.0701	Chemical Engineering.	52.1499	Marketing, Other.
14.0702	Chemical and Biomolecular Engineering.	52.1801	Sales, Distribution, and Marketing Operations, General.
40.0501	Chemistry, General.	09	COMMUNICATION, JOURNALISM, AND RELATED PROGRAMS
40.0502	Analytical Chemistry.	09.0100	Communication, General.
40.0503	Inorganic Chemistry.	09.0401	Journalism.
40.0504	Organic Chemistry.	09.0701	Radio and Television.
40.0506	Physical Chemistry.	09.0702	Digital Communication and Media/Multimedia.
40.0507	Polymer Chemistry.	09.0900	Public Relations, Advertising, and Applied Communication.
40.0508	Chemical Physics.	13	EDUCATION.
40.0509	Environmental Chemistry.	13.0101	Education, General.
40.0511	Theoretical Chemistry.	13.0201	Bilingual and Multilingual Education.
40.0512	Cheminformatics/Chemistry Informatics.	13.0202	Multicultural Education.

V. List of Members

Member Universities

Muroran Institute of Technology	Tokyo Institute of Technology	Tokyo University of Science
Tohoku University	Yokohama National University	Tokyo Metropolitan University
The University of Tokyo	Kyoto University	Keio University
Tokyo University of Agriculture and Technology	Osaka University	Tokyo City University
Doshisha University	Kyushu University	Waseda University
Ritsumeikan University	Okayama University	

Supporting Members

ALMEC VPI	KDDI Research	Hitachi
NTT Data	TERAOKA	Mitsubishi Electric
Omron Japan	Haseman	Taisaku Honda

Business Cooperation Members

KDDI Research	Azbil	Kyushu University
The Institute of Behavioral Sciences	Alps Alpine	Tokyo Metropolitan University
Tokyu Corporation	Pretia Technologies	Osaka Institute of Technology
Olympus	ALMEC VPI	
Hitachi	The University of Tokyo	
Sony Computer Science Laboratories	Yokohama National University	
Tohoku University	Tokyo University of Science	

(As of April 2023)

Issued on the 30th of June 2023

The International Association for the Exchange of Students for Technical Experience Japan

E-mail: office@iaeste.or.jp

URL: <https://iaeste.or.jp/>

Opening Hours: Monday to Friday 9:30-17:30
