## I . About IAESTE

IAESTE is an abbreviation for “International Association for Exchange of Students for Technical Experience”. More specifically, it is an international non-governmental organization providing overseas internships for students majoring in natural sciences. Since its inception in the United Kingdom in 1948, IAESTE has pursued the goal of training engineers with a broad international perspective. While its main focus of activity has been in Europe, more than 80 countries have joined this group along with 350,000 students who have participated in mutual exchanges to this day. The entirety of the internship training is conducted in English.

Students who submit a training report within a month after the completion of the programme will receive the official IAESTE Training Completion Certificate. For more detailed information, please visit the official website below.

- IAESTE Official Website <https://iaeste.org>
- IAESTE JAPAN Official Website <https://iaeste.or.jp>

### 2. Exchange Type

The IAESTE programme is conducted on a one-to-one basis whereby one student is taken for every student sent abroad. Every year in January, the IAESTE member countries convene at the annual conference to exchange their interns' respective work offers.

**These types of offers are called Exchange Internships.**

- \* **The internship offer can be found in an A4 document named **INTERSHIP OFFER**. Its abbreviation is called **O-Form or Form-O****
- \* The following information will be written in English: Name of the accepting country and institution, required skills, number of years required to complete the current degree programme, work content, possible internship period, accommodation expenses (in local currency) and lodging details. The reference number will be displayed in the top right-hand corner
- \* Application documents (i.e. nomination documents) will be prepared in accordance with the assigned offer and sent to the host country's office. The decision concerning acceptance or rejection will depend on the results of the host organization's inspection. The procedures are described in detail in the program guidance(2024 edition).

The internship offer is contained in an A4 document labeled INTERNSHIP OFFER. Please remember that this is an important term for IAESTE.

Date:

On behalf of receiving country:

## Selecting the Type of Internship Offers

### ● Exchange Internship

- At the annual conference (International General Assembly), the student applicants will be matched with offers closest to their preferred conditions and eventually assigned to one offer each after the annual conference in February. The offers with no other applicants or competitors will most likely lead to an internship.
- The nomination documents are to be submitted to the host organization by March 15, upon which the acceptance results will follow. In the case of rejection, the application process can be continued by searching for alternative COBE/FCFS offers described below. As a general rule, it is not allowed to change the initially assigned offer to COBE/FCFS offer through rejection.

### ● Global Internship

- Multiple applications are possible if the offers' requirements are met. Applicants can apply for maximum two offers at the same time of their desired exchange periods from any of the offers posted on the exchange platform. Given that there are many offers with an application window of two weeks, it is necessary to prepare the nomination documents quickly.
- The number of offers changes according to season. Normally, the peak is reached between May and June, followed by a decrease throughout the summer and a resurgence during autumn and winter.
- There is a large number of offers in the field of Computer Science
- Depending on the offer, there may be a large volume of applications from other countries. In such a scenario, the most skilled student will be selected.
- Given the low number of offers for second-year graduates or majoring in biology, urban planning and architecture, we recommend these students to consider the Exchange Internships instead
- Offers for remote internships are possible but very few (there is no payment for accommodation expenses in Japan for these types of offers during training)

## Features of Offer types

Offer Type	Advantage	Disadvantage
Exchange Internship One offer assigned to per person	<ol style="list-style-type: none"> <li>1. there are no other applicants (competitors).</li> <li>2. there is a very good chance that you will be accepted if you meet the required skills</li> <li>3. If you are not accepted, or if the offer itself is cancelled for some reason, you can search for your preferred offer from the Global Internship offers.</li> </ol>	<ol style="list-style-type: none"> <li>1. You cannot choose the country of destination.</li> <li>2. You cannot choose the content of the training, so it may not meet your expectations.</li> <li>3. If there is no offer in your first choice region that matches your desired field and desired duration, you will be assigned to your second or fourth choice region.</li> <li>4. The first offer you are assigned cannot be rejected in principle. (Except in cases where the country has become a travel risk.</li> </ol>
Global Internship	<ol style="list-style-type: none"> <li>1. You can choose the offer you want by looking at the country of your choice, content, duration, etc.</li> <li>2. You can apply to two offers at the same time.</li> <li>3. There are offers from companies that are not listed in the Exchange Internship.</li> <li>4. If no student is found that meets the requirements, the offer will be repeatedly published in the system.</li> <li>5. There are many offers in the computer science field.</li> <li>6. Remote internship offers will be available.</li> </ol>	<ol style="list-style-type: none"> <li>1. Applicants may come from every member country There may be more than one competitor for some offers.</li> <li>2. The number of open offers fluctuates depending on the time of the year, with a maximum in June and less number during the summer vacations</li> <li>3. Most offers have a deadline of two weeks to one month after the offer is released.</li> <li>4. There are only a few offers for students who have completed two years of undergraduate study.</li> </ol>

### 3. IAESTE Member Countries

Argentina	Cyprus	Israel	Pakistan	Sweden
Australia	Czech Rep.	Japan	Palestine	Switzerland
Austria	DPR Korea	Jordan	Panama	Syria
Afghanistan KU	Denmark	Kazakhstan	Peru	Tajikistan
Bangladesh	Ecuador	Kenya	Philippines	Tanzania
Bosnia and Herzegovina	Egypt	Kuwait	Poland	Thailand
Brazil	France	Lebanon	Portugal	Tunisia
Belarus	Gambia	Luxemboug	Qatar	Turkey
Bolivia	Germany	Macedonia	Republic of Korea	Ukraine
Belgium	Ghana	Malta	Romania	United Arab Emirates
Canada	Greece	Mongolia	Russia	Uzbekistan

Croatia	Indonesia	Nigeria	Norway	
China Mainland	Iran	Norway	Oman	
China Hong Kong, SAR	Iraq,UA	Oman	Spain	
China Macau, SAR	Ireland		Sri Lanka	
Colombia			South Africa	

### 4. Number of Exchanges (Numbers for 2020-2021 decreased due to Covid-19)

Training Year	Students Sent	Students Accepted
<b>2017</b>	27	60
<b>2018</b>	38	49
<b>2019</b>	44	50
<b>2020</b>	0	1(Remote internship)
<b>2021</b>	12	0(Due to entry ban)
<b>2022</b>	17	23
<b>2023</b>	33	34

## II. IAESTE Overseas Internship

### 1. Outline

\* "Dispatching" in this context means partaking in an internship abroad with the IAESTE program. Students who participate in such an internship will be referred to as "dispatchees"

- 1) Field of studies (including IT-related)  
Please refer to the section "List of Specialties" on the pages 14-15 for further information
- 2) Internship Destinations: Universities, research institutions, companies and other organizations in IAESTE member countries

**Please note:**

1. There are almost no institutions accepting interns (internship destinations) in North America and Oceania
  2. In addition to professional skills, passing an online interview is required in many countries. English speaking abilities are a must, especially for European internships.
  3. Expertise in the respective subject area is particularly emphasized in Europe
- 3) Training Period:  
Anything between 8 - 52 weeks can be chosen. Most offers fall within the 8 - 12 week range or last for either a year or half a year.

**For Exchange Internships:**

**The training start can be chosen on any date between June 1st 2024 and December 2024. Alternatively, there are many offers from July to December and particularly from July to September for students who wish to conduct their training during the summer break.**

If you set a very short time limit for your desired internship period, the overall amount of potential offers will decrease.

**For Global Internship:**

An offer of the desired period can be chosen. In European member countries, the amount of offers decreases in August due to summer vacations.

- 4) Accommodation: The local IAESTE office or host organization will arrange for accommodation.
- 5) Language: The training will be conducted in English. In non-English speaking countries, the local language may be needed for everyday life. Once the destination has been decided, learning the language to a certain degree can facilitate a more fulfilling time in the host country. It is advantageous to have skills in the language of the country where the internship is conducted (German is an advantage for Austria/Switzerland/Germany).  
**IAESTE provides internships specifically meant for putting knowledge acquired at university into practice, be it at laboratories, companies or other organizations. Its goal should not be studying English or doing work outside of one's specialty**
- 6) Participation Fee  
The participation fee is the same for both Internship (Exchange and Global). It is 55,000 yen for students from member universities and 110,000 yen for students from non-member universities

Breakdown:

1. Application fee: Member universities 5,000 yen, non-member universities 10,000 yen
2. Program entry fee (internship commission): Member universities 50,000 yen, non-member universities 100,000 yen.
  - *The dispatchees' rights are valid for three years after the completion of the interview.*
  - *If you participate in the internship more than once, an additional program participation fee will be half price. Application fee is not be charged.*
  - *If you end up doing a Remote internship, 25,000 yen will be refunded.*

7) Dispatch Expenses Breakdown:

1. Travel expenses: Travel expenses are the responsibility of the dispatchees
2. Cost of living: As a general rule, the minimum cost of living, e.g. accommodation and meals are borne by the host organization. However, expenses for activities such as leisure and travel might have to be paid by the dispatchees themselves
3. Overseas accident insurance: Mandatory at the expense of the dispatchees
4. Visa: Documents required for obtaining a visa will be issued by the respective IAESTE country. The visa application process must be undertaken by the dispatchees. The costs involved in obtaining a visa are to be paid by the dispatchees.

**Notes concerning all offers**

- Many developed countries in Europe require three to four years of undergraduate study or more; many countries conduct online interviews as part of the acceptance process.
- The host organization reviews the English resume and transcript; internships outside of one's field of expertise are not possible.
- *AutoCAD skills and portfolio submission are required if you wish to do an internship in the field of Architecture.*
- TOEIC scores are invalid for internships in Austria. A certificate for speaking and writing abilities is required.
- For internships in Germany, only full-month periods from the start to the end of the month can be chosen. Finishing or starting in the middle of the month is not possible. (e.g. July 1st to September 30th is possible, July 13th to October 13th is not possible)
- PhD students are not eligible for internships in Switzerland

## 2. Procedures leading up to internship decision

- I. After having paid the application fee, the application documents will be sent to the office by email before the deadline. The required student information will be obtained from the **IAESTE Exchange Platform** ( <https://iaeste.smartsimple.ie/> ) and registered in English, including university, field of study and contact information. Registration will be complete upon certification by the office. Please refer to the Student guide in the Exchange Platform find out how to register. **From assigning offers to deciding internships, everything is done on the Exchange Platform.**
  
- II. In November, the IAESTE professor at your university will conduct an interview concerning your motivation and your CV. Feedback on the interview results will be given by the office. The interview date will be decided in coordination with the interviewing professor at each university.  
**For Exchange Internships:**  
 The student's expertise, number of years in the field of study, internship role, possible period of training and preferences outlined in the application will be taken into consideration at the annual conference by IAESTE Japan when assigning offers. The offer will be assigned in accordance with a 6-digit specialty number described on P.14-15 and the person's desired area/training period (specialties where training is possible).  
**Once assigned Exchange Internship cannot be converted to COBE/FCFS offers.**  
**For Global Internship:**  
 Please select the offer in the Exchange Platform you want to apply for and contact the office with the offer's reference number at any time. Nomination documents will be submitted before the deadline after assignment by the office. If there are multiple applicants for one offer from Japan, the required level of skills, English abilities, the transcript and the number of units in their area of study have to be taken into account in the selection process. The student who fulfills these requirements best will be selected by the office. Subsequently, the process from **iii** to **vi** is the same as with the Exchange Internship offers.
  
- III. Upon assigning the offer, the nomination documents will be prepared in accordance with the instructions of the respective country and sent to the Japan office. The Japan office will confirm that the nomination documents have been prepared accordingly and forward them to the IAESTE office of the host country. Subsequently, acceptance or rejection will be decided based on the screening by the host organization. The latter may also conduct an interview via online or telephone. In Austria, the interview will be conducted right at the beginning.  
**Acceptance can be denied if the host organization's requirements concerning knowledge, skills and language abilities are not met.**
  
- IV. If a long-term internship for a half year or one year (26-52 weeks) is desired, proficiency in English and a high level of skills is required. There will also be two or three interviews.
  
- V. If the screening of the host organization is passed, the "ACCEPTANCE NOTE" will be uploaded to the Exchange Platform, officially marking the decision to send the student overseas as an intern.

- VI. Please make sure to carefully read the 2024 edition of the “Program Manual” on the website (downloadable) before proceeding. It outlines the submission method for the nomination documents and the procedures for using the system.

### III. Application Requirements

Application documents: Please download form one and two from the IAESTE JAPAN [website](#).

1. Application form (passport photo (3.5x4.5cm))
2. Statement of motivation (English)
3. English Resume (A4, not more than 2 pages, otherwise no format restrictions)
4. English Certificate of enrolment and transcript of records(copy also possible). Make sure to keep the original as it will be needed later
5. English proficiency certificate (copy also possible):
- 6.

**Required score to select Exchange Internship**

TOEFL iBT82 or above, TOEFL ITP503 or above, IELTS6.5 or above, Cambridge Eiken C1(CAE) or above, Eiken Level 1 or higher, TOEIC Listening/reading 600, TOEIC Speaking/Writing 240 or higher. As a general rule, if there is an expiration date, it should be within the expiration date. (If your mother tongue is English, you don't need to submit it)

**Required score to select Global Internship**

TOEFL iBT88 or above, TOEFL ITP570 or above, IELTS5.5 or above, Cambridge Eiken FCE or above, Eiken Level 1 or higher, TOEIC Listening/reading 800, TOEIC Speaking/Writing 300 or higher. As a general rule, if there is an expiration date, it should be within the expiration date. (If your mother tongue is English, you don't need to submit it)

In overseas IAESTE organizations, there are many cases where English ability is evaluated by means of TOEFL, IELTS and Cambridge Eiken FCE scores. TOEIC scores are not valid for Austrian internships.

7. A copy of the fee transfer (A4, ATM statement can also be used)

Notes for emailing documents (no need to post them):

1. **Combine the documents 1 to 5 into one PDF file in the same order, add your personal name and the name of your university to the file name, then send it to [office@iaeste.or.jp](mailto:office@iaeste.or.jp) by email. Please make sure to also attach the fee transfer copy (file 6). Example: [insert name]University\_John Doe.pdf. Please name the file according to this template.**
2. **Please enter your name in place of the email subject.**
3. The application fee will not be returned.
4. Please make sure not to put the application documents and the application fee transfer copy into one single file.

Application acceptance period: **Must arrived by email at the IAESTE Japan office between 1st September 2023 and October 20th 2023 ,17:00**

### Application fee payment method

Application fee: Member university students 5,000 yen, non-member university students 10,000 yen

Please forward the payment to the following account with the applicant's name (katakana):

Payee	Mitsubishi UFJ Bank Sugamo Branch (branch number 770)
Account number	Normal (普通) 0000925
Recipient	Japan International Association for the Exchange of Students for Technical Experience

- (1) The original copy of the transfer details should be kept by the examinee. No receipt will be issued.
- (2) Please pay the application fee by October 19th 2023, which is the day before the application deadline

After transferring the application fee, please register on the Exchange Platform .

Go to <https://iaeste.smartsimple.ie/> and click on Register with us → Are you a student?

Register your university, field of specialization, address, contact information, and all other necessary information.

The registration will be completed when the secretariat verifies it.

The system's **Student Guide** will guide you through the entire process from registration to the end of your internship.

Please make sure that you have entered your university name, address, and e-mail address correctly.

\* Type of Study Programme: Select Master if you plan to pursue a master's degree in April 2025.

\* Completed Years of Study: Enter the year you will complete at the end of March 2024. If you are one of the above students, enter 4.

\* Required Years of Study: If you are one of the above students, please enter 6 (the number of years you have been an undergraduate).

Please enter an email address that is valid at the time of your internship, as personal information cannot be modified.

If your email address is likely to change due to higher education, please use an email address other than your university email address.

## IV. List of Specialties

Please select and mark three different **6-digit specialty numbers** (\*\*.\*\*\*\*) in the applicable training areas below. Make sure to do this for those specialties that you have already studied. You cannot do an internship in a subject area you have not previously studied.

研修分野番号		14A	ENGINEERING, Other

<b>40B</b>	<b>PHYSICS</b>	52.0305	Accounting and Business/Management.
15.1601	Nanotechnology.	52.0806	International Finance.
40.0202	Astrophysics.	52.0901	Hospitality Administration/Management, General.
40.0801	Physics, General.	52.0903	Tourism and Travel Services Management.
40.0802	Atomic/Molecular Physics.	52.0904	Hotel/Motel Administration/Management.
40.0805	Plasma and High-Temperature Physics.	52.1001	Human Resources Management/Personnel Administration, General
40.0806	Nuclear Physics.	52.1099	Human Resources Management and Services, Other.
40.0807	Optics/Optical Sciences.	52.1101	International Business/Trade/Commerce.
40.0809	Acoustics.	52.1401	Marketing/Marketing Management, General.
40.0810	Theoretical and Mathematical Physics.	52.1402	Marketing Research.
<b>40C</b>	<b>CHEMISTRY, MATERIAL SCIENCE, AND CHEMICAL ENGINEERING</b>	52.1403	International Marketing.
14.0701	Chemical Engineering.	52.1499	Marketing, Other.
14.0702	Chemical and Biomolecular Engineering.	52.1801	Sales, Distribution, and Marketing Operations, General.
40.0501	Chemistry, General.	<b>09</b>	<b>COMMUNICATION, JOURNALISM, AND RELATED PROGRAMS</b>
40.0502	Analytical Chemistry.	09.0100	Communication, General.
40.0503	Inorganic Chemistry.	09.0401	Journalism.
40.0504	Organic Chemistry.	09.0701	Radio and Television.
40.0506	Physical Chemistry.	09.0702	Digital Communication and Media/Multimedia.
40.0507	Polymer Chemistry.	09.0900	Public Relations, Advertising, and Applied Communication.
40.0508	Chemical Physics.	<b>13</b>	<b>EDUCATION.</b>
40.0509	Environmental Chemistry.	13.0101	Education, General.
40.0511	Theoretical Chemistry.	13.0201	Bilingual and Multilingual Education.
40.0512	Cheminformatics/Chemistry Informatics.	13.0202	Multicultural Education.

## V. List of Members

### Member Universities

<a href="#">Muroran Institute of Technology</a>	<a href="#">Tokyo Institute of Technology</a>	<a href="#">Tokyo University of Science</a>
<a href="#">Tohoku University</a>	<a href="#">Yokohama National University</a>	<a href="#">Tokyo Metropolitan University</a>
<a href="#">The University of Tokyo</a>	<a href="#">Kyoto University</a>	<a href="#">Keio University</a>
<a href="#">Tokyo University of Agriculture and Technology</a>	<a href="#">Osaka University</a>	<a href="#">Tokyo City University</a>
<a href="#">Doshisha University</a>	<a href="#">Kyushu University</a>	<a href="#">Waseda University</a>
<a href="#">Ritsumeikan University</a>	<a href="#">Okayama University</a>	

### Supporting Members

<a href="#">ALMEC VPI</a>	<a href="#">KDDI Research</a>	<a href="#">Hitachi</a>
<a href="#">NTT Data</a>	<a href="#">TERAOKA</a>	<a href="#">Mitsubishi Electric</a>
<a href="#">Omron Japan</a>	<a href="#">Haseman</a>	Taisaku Honda

### Business Cooperation Members

<a href="#">KDDI Research</a>	<a href="#">Azbil</a>	<a href="#">Kyushu University</a>
<a href="#">The Institute of Behavioral Sciences</a>	<a href="#">Alps Alpine</a>	<a href="#">Tokyo Metropolitan University</a>
<a href="#">Tokyu Corporation</a>	<a href="#">Pretia Technologies</a>	<a href="#">Osaka Institute of Technology</a>
<a href="#">Olympus</a>	<a href="#">ALMEC VPI</a>	
<a href="#">Hitachi</a>	<a href="#">The University of Tokyo</a>	
<a href="#">Sony Computer Science Laboratories</a>	<a href="#">Yokohama National University</a>	
<a href="#">Tohoku University</a>	<a href="#">Tokyo University of Science</a>
