(Certificate of Enrolment issued by the university is not required).

If you will not be able to obtain the certificate until April because you are going on to graduate school, please inform the Japan Office when you upload the Nomination form.

The host country's IAESTE will upload the Acceptance Notes (N/5-A) to the EP, which will be forwarded to the candidate by the Japan Office.

V. Preliminary procedures and preparations

1. Obtaining a visa and work permit

Depending on the country and the length of stay (more than three months), it may be legally necessary to obtain a work permit.

If you need to obtain a work permit, please check the relevant documents sent to you by the host country's IAESTE and complete the procedures yourself with the support of the host country's IAESTE. You are responsible for all costs.

If the host country requires a VISA, after submitting your nomination documents, please check the visa and work permit information on the host country's IAESTE or the embassy's website.

The host country's IAESTE will prepare the VISA application documents and send them to you by e-mail. Apply as soon as you receive them.

2. Purchase airline tickets

Please make your own reservations and purchase airline tickets at your own risk.

3. Purchase travel insurance

You are obliged to take out travel insurance yourself. The period must be from the day of departure to the day of return (including outside the internship period).

If the host country's IAESTE specifies the contents and amount of coverage in its documentation, please follow the instructions.

4. Preparation for accommodation

The host institute or the host country's IAESTE will pay you an amount sufficient to enable you to live in the host country for the duration of the internship : Specific amounts are indicated on the O-form.

The host country may deduct taxes from the amount paid, so please check the O-form or the documents sent by the host country.

The amount of the accommodation fee is generally limited to the cost of food and accommodation, so if you plan to go out or travel outside of the internship, we recommend that you bring a certain amount of money with you.

Please check with your host institute or the host country's IAESTE about the date and method of payment of the accommodation fee. It is advisable to bring a certain amount of cash for immediate living expenses, as it may not always be paid immediately after internship starts.

5. Confirmation of accommodation

In principle, the host institution or the host country's IAESTE will arrange or provide information on accommodation. Depending on the host country, the address of the accommodation may not be notified in advance. Please check the O-form to see whether the accommodation costs are to be borne by the host institution or by the trainee, and contact the host country's IAESTE in if you have any questions.

6. Improvement of language skills

As a rule, IAESTE internship is conducted in English, so please make every effort to improve your English language skills. On the other hand, it is advisable to learn at least greetings in the language of the host country, as smooth and active communication can be achieved by using the language of the host country in daily life. In addition, as you will be asked many questions about Japan, you should be able to explain about our culture, customs, history, geography, etc. in English.

The IAESTE Internship Preparation Meeting is held in June and includes a language study session.

The place and date of the meeting will be announced separately.

7. Make an emergency contact list

In case of illness, injury, crime, loss of passport or other accidents, make an emergency contact list and keep a printed and electronic file with you. The contact details of the local police and other contacts to be checked after arrival should be left blank for the time being and filled in after arrival. It is also advisable to prepare contact details (email and telephone numbers) for crisis management, e.g. for the Japanese office, host country's IAESTE representative, host institution representative, etc.

VI. From pre-departure to end of internship

1. Before departure

In principle, you should arrive in the host country at least one day before the start of the internship. The student in charge of the group may be contacted by the host country's IAESTE, if it provides support after arrival at the airport. Before departure, please confirm the meeting place and time at the airport, etc., and the contact details of your escort.

In the event of natural disasters, terrorism, war, epidemics, etc., the host country's IAESTE will consider whether to carry out the internship based on information from the Ministry of Foreign Affairs of the host country, WHO and other international organizations, and will promptly inform the students if it is decided to cancel the internship. If the host country's IAESTE does not decide to cancel the internship, you, your family and your university will decide whether the internship can take place or not.

2. Arrival in the host country

In principle, you are expected to go to the host institution by yourself.

Contact the host institution or the host country's IAESTE indicated in the Acceptance Notes and ask for a map and directions to the host institution and the places to visit on the first day of the internship. On arrival email the Japan Office to inform of your arrival.

If the arrival schedule changes due to flight delays or rerouting, etc., please inform the host country authorities (IAESTE, airport receptionist, accommodation, etc.) and the Japan Office as soon as possible.

3. During the internship period

Please check the emergency call number and location of the nearest hospital in case of illness or injury, and add this information to your emergency contact list. Please also make sure you know the contact details of your travel insurance company and the extent of its coverage.

If you need to be hospitalized, please inform your family, your host institution and the host country's IAESTE as soon as possible. If you wish to shorten the duration of your internship for personal reasons, please contact your host IAESTE and the Japan Office.

In case you lose your passport, contact the nearest embassy or consulate to get your passport re-issued. If you need to return to Japan without a passport, apply for a "travel document for return."

In the event of natural disasters, terrorism, war, epidemics, etc., the Japan Office will consider countermeasures based on comprehensive information and reports from the host country's IAESTE, other relevant organizations and intern.

4. Completion of internship and return to Japan

Please send an email to the JAPAN Office within one week of the completion of the internship.

Download the internship report format from the IAESTE JAPAN website, prepare your report and submit it by email. The IAESTE official internship certificate will be awarded to those who submit the report within one month of the end date of the internship.

After that, we would like to ask for your cooperation in presenting your experiences at the "Internship Reporting Meeting" and "Internship Information Sessions" for the benefit of the candidates for the following year's internship. If you are willing to cooperate, we will contact you for further details.

IAESTE student committee members in Japan lead the above-mentioned meetings and engage in activities to deepen exchanges through support for incoming interns (for details, please refer to our Instagram: https://www.instagram.com/iaeste_japan_tlsc/). If you are interested, please contact the Japan Office.
