

The Application Guidelines

in April

for IAESTE Internship 2025

Application period: **Tuesday 1 April - Friday 20 April 2025**

Please note that there are restrictions for April applications as underlined.

Eligibility: At the time of the internship, you must be a third-year undergraduate student or above and enrolled in a university or graduate school that is a member of IAESTE (see p.7) (nationality does not matter).

Internship period: Internship is available between June 1, 2025 and May 31, 2026.

If you wish an internship after June 2026, please apply in September 2025.

This guideline is intended to outline IAESTE and its internship programs and the application process for those who are interested in applying for IAESTE internship. Please refer to the Intern Manual if you would like to know more about the procedures and precautions to be taken after you have applied and obtained the right to become an intern.

I. About IAESTE

1. What is IAESTE?

IAESTE is an international non-governmental organization that promotes internships abroad in a wide variety of professional fields, mainly in **STEM fields**, but also in management, marketing, etc. "IAESTE" is an abbreviation for the International Association for the Exchange of Students for Technical Experience.

It aims to train engineers with a broad international perspective and has been active mainly in Europe since its foundation in the UK in 1948.

All internships are conducted in English.

Internships provide practical training in overseas laboratories or companies, making use of the expertise gained during/after university studies, and are different from study abroad program where the aim is to learn English or to study a new specialization.

Students who submit their internship report within one month of completing their internship will be issued with an official IAESTE internship certificate. For more information, please visit the IAESTE Official Website (<https://iaeste.org>)

2. Glossary

Host institution: A company or university offering internship opportunities to students.

Offer: A prescribed format in which the host institution states the specialization and required skills of the student to be accepted, as well as the accommodation to be provided. A sample Internship Offer (called "O-Form" or "Form-O" for short) is shown on the next page. It is issued by a host institution in the Czech Republic.

Explanation of the items in O-Form.

Ref. No. in the upper right-hand corner: Offer number, consisting of two letters of the country code and a number.

Internship Host Information: Information on the host institution, including the name, location and website of the university or company.

Student Required: Field of specialization, skills required for internship, years of study required, language and level required.

Internship Offered: Information on the nature and duration of internship, the accommodation costs to be paid and how they will be paid. You can choose a period within the Number of weeks described in "Within the month" (in weeks, e.g., for 8-12, the desired duration can be chosen within the range 8-12 weeks).

Accommodation: Information on accommodation during the internship and an estimate of the costs of accommodation and living expenses.

Intern Candidate: A student who applied and successfully completed an interview with the IAESTE professor in charge. The right of an intern candidate to be an intern is valid as long as the student remains enrolled in a university in Japan.

IAESTE A.s.b.l.: A non-profit organization registered in the Grand Duchy of Luxembourg and the international umbrella organization for IAESTE. A.s.b.l. stands for "Association sans but lucrative."

Exchange Platform (EP): Offer publication and application system operated by IAESTE A.s.b.l. Initial registration is required to use the system. Through this system, host institutions, national IAESTE offices and students exchange documents.

IAESTE CZECH REPUBLIC

This sample is valid for 1 September 2024, before the design change.
The items remain the same before and after the change.

INTERNSHIP OFFER

Ref. No. CZ-2024-020004

Internship Host Information

Internship Host: Institute of Chemical Process Fundamentals of the CAS, v. v. Website: www.icpf.cas.cz
i.
Rozvojova 135
165 02 Prague
Czech Republic

Location of placement: Prague
Nearest airport: Václav Havel Airport, Prague
Working hours per week: 40.0
Working hours per day: 8.0

Number of employees: 200

Business or products: Chemical Process Fundamentals

Student Required

General Discipline: CHEMISTRY AND CHEMICAL ENGINEERING
Field of Study: Inorganic Chemistry.; Organic Chemistry.

Completed years of study: 5
Student status requirements: required when nominated
Language required: English Good (B1, B2)

Required Qualifications and Skills:

Teamwork | Organic Chemistry | Chemical Processing

Other requirements:

Interview can be required.

Master degree in organic/inorganic chemistry or organic technology and related fields,
willingness to do experimental work and learn new things
ability to work as part of a team.

SAMPLE

Internship Offered

Preparation of phospho-nanographenes

π -Conjugated organophosphorus systems have become the subject of intensive research in recent years, primarily due to their applications in materials chemistry. The presence of the phosphorus atom in these molecules facilitates further derivatization, effectively altering some key characteristics of the target molecules and their intended applications. A special place in this class of substances is occupied by six-membered phosphacycles. Although considerable progress has been made recently in synthesizing these substances, polyaromatic compounds incorporating a phosphinine ring remain rare. This study will investigate synthetic routes for introducing the phosphinine core into nanographene structures. The properties of these novel compounds will also be extensively studied.

Number of weeks offered: 12 - 20
Within the months: 03-JUN-2024 - 30-NOV-2024
Or within: -
Company closed within: -

Working environment: Research and development
Gross pay: 14500 CZK / Month
Deduction to be expected: 0
Payment method / time of first payment: Cash / 13th of the following month
Latest possible start date: 01-SEP-2024
Other important remuneration information: 0

Accommodation

Canteen at work: Yes
Expected type of accommodation: Student dormitory
Accommodation will be arranged by: IAESTE

Estimated cost of lodging: 5500 CZK / Month
Estimated cost of living incl. lodging: 11000 CZK / Month

Additional Information

Please follow the instructions for preparing the nomination documents and the visa process in the attached document. These documents are only for you and your student, please don't include them in your student's nomination. Depending on your visa situation, we may shorten the duration of the internship

Nomination Information

Deadline for nomination: 05-JUN-2024

Date: 15-MAY-2024
On behalf of receiving country: IAESTE Czech Republic

3. Exchange system and matching

IAESTE Japan exchanges offers with other Member Countries on a one-to-one basis and matches the offers it obtains with pre-assumed intern candidates. Member countries that receive offers from IAESTE Japan also send students to host institutions in Japan. The mechanism that relies on this one-to-one exchange principle is called “Exchange Internship.”

On the other hand, there is also a mechanism for matching students through the EP, which does not rely on the exchange of offers and is called “Global Internship.”

Applicants who apply in April are only eligible for the Global Internship.

Note that “matching” merely indicates a stage before an intern candidate is accepted, and that the internship is only confirmed after the subsequent decision of the host institution.

4. The two types of offers and their characteristics

Exchange Internship (Not applicable for April applications and can only be applied for in September. The explanation below is for reference only)

IAESTE Japan contacts other Member countries to obtain offers that conform to the requirements of each intern candidate and matches one student per offer. If you are not accepted, you can continue your application for the Global Internship offer.

It is not permitted to reject a matched Exchange Internship offer and change to Global Internship. (Exceptions may be made if the country has been declared a travel risk).

◎Benefits

1. Offers are obtained on a case-by-case basis and there are no other applicants (competitors), so there is a significant chance that an internship will be confirmed.
2. Very high chance of being accepted if you have the necessary skills.

× Disadvantages

1. You cannot choose the country in which the internship takes place.
2. The details of the internship cannot be chosen, so the internship may not meet your expectations.
3. If there is no offer in the first-choice region that matches the desired field and desired duration, the second to fourth choice regions will be selected.

Global Internship (Only this offer type is available to applicants who applies in April)

The offers are published on the EP throughout the year and are viewable for intern candidates. If there are multiple applications for one offer, the most skilled student will be selected. Many offers close two weeks after publication, so nomination documents should be prepared promptly.

◎ Benefits.

1. You can select your own offers from the offers published on the EP by looking at the country of interest, internship content, duration of internship, etc. as far as you fulfil the necessary requirements stated in the offer.
2. You can find offers from internship hosts that do not appear on Exchange Internship.
3. If no students matching the requirements are found, the offer is repeatedly published in the system.
4. Many computer science offers are available.
5. Remote internships are also published.

× Disadvantages.

1. The number of offers varies depending on the time of year. Usually it is highest from April to June, declines in the summer months and then increases in autumn and winter.
2. Offers for students who completed 2 years of undergraduate studies, or who major in biology and urban planning are relatively scarce: Exchange Internships are recommended for such students.
3. Some offers may be highly competitive due to the large number of applications. Particularly competitive are offers from Switzerland, Austria and Scandinavia.

5. IAESTE Member Countries

Afghanistan, KU	Ghana	Philippines
Albania, SB	Greece	Poland
Argentina	Hungary	Qatar
Australia	India	Romania
Austria	Indonesia, UAJY	Russia
Azerbaijan, BIR	Iran	Serbia
Bangladesh	Iraq, UA	Slovakia
Belarus	Japan	Slovenia
Belgium	Jordan	Spain
Bolivia	Kazakhstan	Sri Lanka, UM
Bosnia and Herzegovina	Kenya	Sweden
Botswana, BIUST	Korea	Switzerland
Brazil	Kyrgyzstan, IntUIT	Syria
Cameroon, ELA	Lebanon	Tajikistan
Canada	Macedonia	Tanzania
Chile, TU	Malta	Thailand
China, BISC	Mexico, ITD	Tunisia
China Hong Kong	Mongolia	Turkey
China Macao	Nepal	Uganda, TIS
Colombia	Nicaragua, ULSA	United Arab Emirates
Croatia	Nigeria	United Kingdom
Czech Republic	Norway	United States
Ecuador	Oman	United States, PU
Egypt	Pakistan	United States, RH
France	Palestine	Uzbekistan
Gambia, MIMT	Panama	Vietnam, TNU
Germany	Peru	Yemen, HF

6. Trends in exchange numbers

Year	Students Sent	Students Received
2017	27	60
2018	38	49
2019	44	50
2020	0	1 (Remote internship)
2021	12	0
2022	17	23
2023	33	34
2024	35 (estimated)	35 (estimated)

Note: The decrease in 2020-2021 is due to travel and entry restrictions following the spread of Covid-19 infection.

II. Overview of IAESTE Internship

1. Field of internship

General science (including IT-related fields), business, marketing, etc. For more details, please refer to “V. List of fields of internship”.

2. Destination

Host institutions such as universities, research institutions or companies in IAESTE member countries.

Please note that there are few offers from North America and Oceania.

3. Duration of internship

For applicants applying in April 2025, the duration of internship is limited to within 1 June 2025 - 31 May 2026. If you wish to apply for internship after June 2025, please apply in September 2025.

The duration varies depending on the offer, ranging from 8 to 52 weeks, 8-12 weeks being the most common, followed by offers of six months and one year. Please note that offers of more than six months are subject to strict criteria.

Please note that in Germany, you can only choose a full duration of internship from the beginning of the month to the end of the month, meaning that you cannot start and end your internship on a date in the middle of the month. (e.g. internships from 1 July to 30 September are acceptable, but not from 13 July to 13 October).

4. Accommodation

In many cases, accommodation will be arranged by the host institution or the local IAESTE office.

5. Language

Internships are conducted in English. In non-English speaking countries, the native language of the country of internship may be required in everyday life, so it is advisable to learn some of the language of the country of internship once you have decided on your host country.

It is advantageous to have skills in the native language of the internship country: German language skills are an advantage in Austria, Switzerland and Germany.

6. Amount to be paid to the Japan Office

	University member students*1	Non-member school students	Students with IAESTE internship experience
Application fee	5,000 yen	10,000 yen	0 yen
Internship administration fee*2	50,000 yen	100,000 yen	Half of the amount shown on the left

*1: Current university members are the following 17 universities.

Osaka University, Okayama University, Kyushu University, Kyoto University, Keio University, University of Tokyo, Tokyo Institute of Technology, Tokyo City University, Tokyo Metropolitan University, Tokyo University of Agriculture and Technology, Tokyo University of Science, Doshisha University, Tohoku University, Muroran Institute of Technology, Yokohama National University, Ritsumeikan University, Waseda University

If you belong to a university member school at either the time of application or the time of internship, the amount for university member students will be applied.

*2: After applying and completing an interview with the IAESTE professor in charge, you will be registered as an intern candidate. Registration is valid during the period of enrolment.

If you do a remote internship, half of the internship administration fee will be refunded.

7. Costs of internship

(1) Travel costs:

You are responsible for your own travel costs.

Airline tickets should be purchased after the visa has been granted.

(2) Accommodation expenses:

The amount indicated in the Payment section of the O-form will be paid. You may have to pay your own expenses for leisure time and holiday excursions.

(3) Overseas accident insurance:

Students are responsible for arranging their own insurance. Insurance is compulsory.

(4) Visa:

You are responsible for the cost of obtaining a visa.

If a visa is required for the country of internship, the host country's IAESTE will prepare the necessary documents for visa application. You must then apply for and obtain the visa yourself.

8. Requirements for internship, etc.

(1) The host institution will examine your curriculum vitae (CV) and transcripts in English, so **you cannot apply for an offer that requires a field of study you have not taken course.**

(2) If you wish to apply for internship in Architecture, you must have AutoCAD skills and submit a portfolio.

(3) Many host institutions in developed European countries require a minimum of 3-4 years of undergraduate completion, and many countries include a web or telephone interview during the acceptance screening process.

(4) In Switzerland, doctoral students cannot undertake internships.

III. Flow up to the internship confirmation

1. Outline

All procedures are carried out via the Exchange Platform (EP): <https://iaeste.smartsimple.ie/> “Intern Manual 2025,” which describes how to submit nomination documents and the procedures for operating the EP, is available on the website, so read it carefully before proceeding. (Downloadable)

- i. After transferring the application fee, **email the application documents to the Japan Office strictly by the deadline..**
- ii. Obtain your own account on the EP, enter the required information and complete your registration after verification by the Japan Office. For more information, see page 11, “6. Registering on the EP.”
- iii. Interview with the professor in charge of IAESTE at your university by the end of May to confirm the reason for your application, check your CV, etc. The results of the interview will be fed back to the Japan Office. The date of the interview will be decided after coordination with the professor in charge of the interview at each university.
Students of non-member universities will be interviewed by a professor from a member university.
The internship administration fee must be transferred by 5 November after the interview.
- iv. Choose the offer you want from the EP. Inform the Japan Office of the reference number of the offer and transfer the internship administration fee at the same time.
- v. After matching with the offer, the Japan office will submit the nomination documents by the deadline. However, if there are multiple applications for one offer, the Japan Office will select and match up to two people who are most suitable based on the stated conditions (skills, English ability, number of credits in the field of specialization, and transcripts).
- vi. Once the offer has been matched, **you should prepare the nomination documents as directed** and email to the Japan Office, which then checks to ensure that the nomination documents are in order exactly as instructed, uploads them to the EP and forwards them to the host country.
- vii. The host institution decides whether to accept or reject the nomination. It may conduct an online or telephone interview before this. In Austria, the interview is initially conducted in English by the Austrian IAESTE Secretariat. For long-term internships of six months or more, a high level of professional skills and English language proficiency are required and an online interview is always requested.
You may not be accepted if the required knowledge, skills and language skills stated in the offer are not met.
- viii. When you pass the host institution's decision, “Acceptance Notes” (acceptance letter) will be uploaded to the EP and you will be officially assigned as an intern.
If there are multiple applications for the offer you have selected, the host institution will screen your applications and you may be rejected. In that case, you will need to look for another offer and repeat steps iv to vii above.

IV. Application procedure

1. Application documents

Download the formats for (1) and (2) from the IAESTE JAPAN [website](#) and fill them in.

- (1) Application form with a photo (3.5 x 4.5 cm) attached.
- (2) Statement of Purpose (in Japanese and English, only English is acceptable for students who don't use Japanese)
- (3) Curriculum vitae in English (free format, no more than 2 pages of A4 paper)
- (4) Certificate of enrolment and transcripts in English
- (5) Certificate of English Proficiency

It must be less than two years old from the date of issue at the time the nomination documents are sent.

If the certificate cannot be sent by the deadline, they can be sent later.

Native English speakers don't need to submit.

2. English language proficiency score requirements

One of the following must be reached.

TOEFL iBT (*1)	88
TOEFL ITP (*1)	570
IELTS (*1)	6.5
Cambridge English Qualifications (*1)	C1 Advanced
EIKEN	Grade Pre-1
TOEIC Listening/reading (*2)	800
TOEIC Speaking/Writing (*2)	300

*1: Overseas IAESTEs use these scores to assess English language proficiency in many cases.

*2: Not valid for internships in Austria. Other proof of proficiency is required.

3. How to send an application email

Create a PDF file of the receipt (ATM statement is also acceptable) after transferring the application fee.

The set of application documents (1) to (5) should be made into a single PDF file (compressed within 3 MB) and the file should be named as "00 University_Taro Yamada.pdf".

Send the two PDF files above to the Japan Office (office@iaeste.or.jp) by e-mail. Include your name_University in the title of the email. **Please do not send them by post.**

The Japan Office will reply with an e-mail confirming receipt of the application.

The application fee will not be refunded.

4. Application period

1 April 2025 - 25 April 2025

Applications must be received by e-mail at the Japan Office by 17:00 on Friday 25 April. Please strictly adhere to the deadlines.

Applications received after 17:00 will not be accepted. (except for the Certificate of English Proficiency).

5. Payment of the application fee

Transfer the application fee in the applicant's name **by Thursday, 24 April 2025, the day before the deadline for receipt of applications.**

The original bank transfer details must be kept by the applicant. No receipt will be issued.

Beneficiary Bank and Branch Name	Bank of Mitsubishi UFJ, Sugamo Branch (Branch No. 770)
Account No.	Savings, 0000925
Beneficiary Name	Japan International Association for the Exchange of Students for Technical Experience

6. Registration on the Exchange Platform (EP)

Click on “Register with us → Are you a student?” at <https://iaeste.smartsimple.ie/> and enter the required information including your university, field of study, address and contact details.

Please make sure to read the Student Guide in the EP before proceeding.

The registration process is completed when the EP is validated by the Japan Office.

Important

Notes on filling in the EP

- All information must be entered in English and in half-width alphanumeric characters.
- Personal information cannot be amended after entry.
- Enter information from April 2025 onwards.
⇒e.g. register an email address that will not change in the future.
- For students wishing to apply for Global Internship:
Enter all your skills and select “Release information to other country offices” to be contacted when the most suitable offer for your skills is posted.

Fields that are most likely to be entered incorrectly

Type of Study Program:

Select Master if the option is to progress to a Master's degree from April 2025.

Completed Years of Study:

Enter the number of years to be completed at the end of March 2025, cumulatively from undergraduate studies: For the above student, enter 4, not the expected year of graduation.

Required Years of Study:

Enter 6 for the above student (the number of years from undergraduate studies).

7. Registration on the Entry Form

After transferring the application fee, register on the following Google Form in Japanese.

<https://forms.gle/wegVDdLPAFsFd9zj8>

V. List of internship fields

IAESTE A.s.b.l. classifies the fields of study as shown in the table below; the Symbol column indicates a symbol for convenience. An asterisk (*) in the Fields of study column indicates that there are subdivisions in the table on the next page.

General Disciplines		
Item	Symbol	Fields of study
Agriculture	01.A	*
Food Science	01.B	*
Natural Resources and Conservation	03.A	
Environmental Engineering/Sciences	03.B	*
Forestry	03.C	
Geography	03.D	
Architecture	04.A	*
Landscape Architecture	04.C	
Interior Architecture	04.D	
Civil Engineering	14.B1	*
Geology	14.B2
